

Names: \_\_\_\_\_

Give a script that generates the above image. Those are gray circles having radius 50, drawn on a  $1000 \times 400$  canvas with black background. You are welcome to hardwire whatever values you want in your source code.

```
from cs1graphics import *  
paper = Canvas(1000,400)  
paper.setBackgroundColor('black')
```
