

Midterm 1 Information

- The first midterm will be on Friday, 14 October 2016, from 10:00–10:50am.
- This exam is closed book and no calculating devices of any type will be allowed. You are allowed, however, to prepare in advance one 8.5x11 sheet (double-sided) containing whatever notes you wish to place on it, and you may use this page during the exam. When the exam is over, submit this sheet with the rest of your exam.
- The exam will cover all lectures, readings, and assignments up to and including the lecture on Friday, 7 October 2016. (please see the class schedule for exact coverage)
- Unlike the homework questions, we are often very open-ended and require a great deal of thought and time to digest, the exam questions should be more rote, expecting you to demonstrate more basic comprehension of the fundamental problems, algorithms and analyses that we have seen.
- For your convenience, we will distribute a copy of an old midterm exam with solutions.
